OnDemand: HIP - Operational Reports					
OASIS-C Patient Level Folio					
Report	Data Source	Who	What	When	Why
OASIS Assessment List	OASIS	Clinical Directors/Managers/PI	Provides agencies with aggregate and patient level counts of assessments, errors, and warnings by assessment type	Real-time reporting-view daily to weekly	Provides insight and review of OASIS errors and warnings to ensure accuracy of OASIS assessment prior to submitting files to CMS
Potentially Avoidable Events	OASIS	Clinical Directors/Managers/PI	Provides detailed patient-level potentially avoidable event occurrences	Real-time reporting-view weekly to monthly	Monitors occurrences of potentially avoidable events by patient and clinician
PatientView Risk Overview	OASIS	Clinical Directors/Managers/PI	Provides list of patients that are at-risk for hospitalization and/or emergent care.	Real-time reporting - view weekly or daily	Provides a proactive approach to patient care and care planning. Enhances clinical decision support in determining clinical intervention approaches to avoid patient hospitalization and emergent care.
PatientView Detail Report	OASIS	Clinical Directors/Managers/PI	Report that provides the 48 patient characteristics that drive the identified risk factor for the patient.	Real-time reporting - view weekly or daily	Review the factors that are driving the identified risk factors for Emergent Care
PPS Reimbursement Worksheet	OASIS	Clinical Directors/Managers/PI	Patient Level report that provides detailed PPS information at the start of each episode of care	Real-time reporting - view weekly or daily	Determine PPS calculations and drivers of reimbursement
PPS Details Patient List	OASIS	Clinical Directors/Managers/PI	Provide agencies with a patient list of PPS-related information, such as case weight, anticipated therapy visits and anticipated total episodic reimbursement	Real-time reporting - view weekly or daily	Manage PPS episodes by patient and/or clinician.
QA Verification Report	OASIS	Clinical Directors/Managers/PI	Provides detailed patient-level errors and warnings for OASIS assessments	Real-time reporting - view weekly or daily	Ensures data accuracy, improves care plans and reduces rejected claims
QA Recertification	OASIS	Clinical Directors/Managers/PI	Identifies improvement/declines/stabilization at patient level for each of the key quality measures at the time of recertification	Real-time reporting - view weekly or daily	Monitor outcome measures at recertification by patient and clinician
QA Transfer	OASIS	Clinical Directors/Managers/PI	Identifies hospitalization (ACH) and emergent care (EC) events at the patient level with reasons for Hospitalization	Real-time reporting - view weekly or daily	Monitor results of ACH and emergent care by patient and clinician
QA Discharge	OASIS	Clinical Directors/Managers/PI	Identifies improvement/declines/stabilization at patient level for each of the key quality measures at the time of discharge	Real-time reporting - view weekly or daily	Monitor outcome measures at discharge by patient and clinician
Patient Progress Report	OASIS	Clinical Directors/Managers/PI	Individual patient level report that provides comparative (side by side) OASIS information by episode type; Includes HHRG, clinician, OASIS M question responses and more	Real-time reporting - view weekly or daily	Ensures data accuracy, improves care plans, enhances patient case management
SOC/ROC Process Measures Patient List	OASIS	Clinical Directors/Managers/PI	Provides immediate information about the processes of care (completed at SOC/ROC) that are and are not being done for patients	Real-time reporting - view weekly or daily	With review of report, assures accurate completion of process measures at the SOC/ROC
Transfer/Discharge Process Measures Patient List	OASIS	Clinical Directors/Managers/PI	Provides immediate information about the processes of care (completed at Transfer/Discharge) that are and are not being done for patients	Real-time reporting - view weekly or daily	Monitor process measures for accuracy at Transfer/Discharge

OnDemand: HIP - Strategic Reports					
Clinical Outcomes Folio					
Report	Data Source	Who	What	When	Why
Executive Summary Report	OASIS/Billing	Executive/PI	Dashboard report with benchmark data comparisons to National/Regional norms. Data displayed includes case mix summary, Home Health Compare outcome and process measures, visit data, ACH and EC rates, LOS and visit graphs.	Real-time reporting - view monthly/quarterly	Provides at-a-glance overview of important HHA metrics. This high-level view provides focus for more detailed investigation as warranted by results.
Hospitalization and Emergent Care Report	OASIS	Clinical Directors/Managers/PI	Provides rates and reasons for hospitalization, emergent care, and nursing home admissions, as well as admission rates to inpatient facilities and disposition of discharged patients.	Real-time reporting - view monthly/quarterly	Utilize for tracking and trending ACH and/or EC rates. Use for investigating "reasons why" patients are admitted to assist with reducing ACH rate.
Outcomes	OASIS	Clinical Directors/Managers/PI	All utilization and outcome measures (OBQI report) with your results compared to state, regional, and national norms	Real-time reporting - view monthly/quarterly	Allows for review of all outcome and utilization measures side by side with the benchmarks
Trended Outcomes Report	OASIS	Clinical Directors/Managers/PI	Trended report for Home Health Compare utilization and outcomes measures.	Real-time reporting - view monthly	Regular monthly tracking of your HHA performance
Expanded Outcomes Report	OASIS	Clinical Directors/Managers/PI	All utilization and outcome measures (OBQI report) in numerical format including rates, numerator, denominator.	Real-time reporting - view quarterly/as needed	Allows for detailed review of all outcome and utilization measures.
Process Measures	OASIS	Clinical Directors/Managers/PI	All Process Measures (OBQI report) with your results compared to state, regional, and national norms	Real-time reporting - view monthly/quarterly	Allows for review of all process measures side by side with the benchmarks
Trended Process Measures Report	OASIS	Clinical Directors/Managers/PI	Trended report for Home Health Compare process measures; can drill down by branch, payer, diagnosis, clinician, team	Real-time reporting - view monthly	Regular monthly tracking of your HHA performance.
Expanded Process Measures Report	OASIS	Clinical Directors/Managers/PI	All Process Measures (OBQI report)	Real-time reporting - view quarterly/as needed	Allows for detailed review of all process measures.
Case Mix Report	OASIS	Clinical Directors/Managers/PI	Details the composition of an agency's patient population	Real-time reporting - view monthly/quarterly	Defines patient population to identify what drives outcomes; evaluate trends—seasonal, long term, or manufactured by changes in the local market for internal analysis and planning

OnDemand: HIP - Strategic Reports					
PPS Outcomes Folio					
Report	Data Source	Who	What	When	Why
PPS Snapshot	OASIS/Billing/Cost Report Data	Executives, CFO's	Medicare only information to evaluate home health agency performance within the PPS environment	Real-time reporting - view monthly/quarterly	Analyze the effects of Medicare population to overall organizational performance
PPS Utilization	OASIS/Billing	Clinical Directors/Managers/PI	Provides visit data by discipline	Real-time reporting - view monthly/quarterly	Analyze the amount of care and type of services it takes to achieve outcomes by 60-day PPS episode for Medicare, traditional patients
New Episode Analysis	OASIS	Executives, CFO's	Provides information for critical PPS indicators at the start of new PPS episodes	Real-time reporting - view monthly/quarterly	Monitor and analyze to identify resource requirements, allowing you to adapt quickly and make changes in cash management and staffing, as appropriate
Completed Episode Analysis	OASIS/Billing	Executives, CFO's	Provides information about reimbursement, costs, and visits for standard, LUPA, and outlier episodes; It also provides information about therapy utilization	Real-time reporting - view monthly/quarterly	Analyze the impact of how often episodes end up receiving more or fewer visits than originally expected, starting and adjusted case weight, reimbursement vs. cost
Actual Therapy Analysis	OASIS/Billing	Clinical Directors/Managers/PI	Provides average actual therapy per standard episode by discipline; Episodes started expecting therapy visits (by range) with actual visits provided above range, in range, or below range	Real-time reporting - view monthly/quarterly	Analyze the impact of expected versus actual therapy utilization for standard episodes of care
